Welcome

Dear colleagues!

Acute type A aortic dissection is a devastating pathology and its treatment is challenging for both the patient and the surgeon.

This cardiovascular course aims at improving comprehensive knowledge on acute type A dissection.

This specific course is intended to cover the therapeutic approach and the whole range of surgical techniques in type A aortic dissection. The course enables training on life-like models with pulsatile flow.

This unique course is designated for advanced cardiac surgery trainees and young consultants.

Lucerne Workshops provide excellent hands-on experience on unique pulsatile realistic models.

We look forward to personally welcome you in Lucerne!

Prof. Dr. Jürg Schmidli, Berne (course director)
Prim. Priv.-Doz. Dr. Afshin Assadian, Vienna
Prof. Dr. Lorenz Gürke, Basle
Dr. Klaus Klemm, Stuttgart
