

Fundamentals in Vascular Surgery Techniques

Lucerne/Sarnen, January 23 – January 25, 2022

VASCULAR INTERNATIONAL SCHOOL AG
Stanserstrasse 111
CH-6064 Kerns

www.vascular-international.org

Welcome

Dear colleagues

The Lucerne Fundamentals in Vascular Surgery Techniques workshop provides an excellent hands-on experience on uniquely realistic pulsatile models to perform basic open surgical techniques, arterial repair and distal bypass surgery. It is designed for junior vascular surgeons at the beginning of their specialist training as well as surgeons of all specialties such as general, gastrointestinal, trauma, orthopedic, plastic and urologic surgery.

As you are aware, the present Covid-19 pandemic has had a big impact on all of our private as well as professional lives. This of course accounts for the Vascular International Lucerne courses as well. Some adaptations had to be made to the programs of the courses as well as the social activities around the courses in order to comply with social distancing rules and keep all of us safe. Please be assured that these measures do not in any way lessen the quality and the learning effect of this unique course!

We look forward to personally welcome you to Lucerne/Sarnen!

Prof. Dr. Jürg Schmidli, Bern, Switzerland
Prim. Priv.-Doz. Dr. Afshin Assadian, Vienna, Austria
Prof. Dr. Lorenz Gürke, Basel, Switzerland
Dr. Klaus Klemm, Stuttgart, Germany
PD Dr. Edin Mujagic, Basel, Switzerland (course director)

CONTENT OF WORKSHOP

- Correct handling of needle holders, needles, sutures and tissues
- Correct arteriotomies
- Basic suture techniques
- Patch plasties
- Anastomotic techniques
- Thrombendarterectomy techniques
- Peripheral bypass surgery
